---

to all NATIVE TEXANS,

read attached

We have 1 thing in common, Texas is our home. I don't know if any of you all have ever been poisoned, or even watched anyone die from poisoning? Well I have and it all ends the same way. Puking & crying non-stop, while defecating large amounts of blood out your anus, sick all the time. That is what happened to me for 8 months straight, as well as to my uncle & 3 brothers from another mother.

What is less than 1/4 mile down river from the San Jacinto Waste Pit site? Property that is sacred to All Texans, "**Battle of The San Jacinto**", "Remember The Alamo" they cried, which is the birth place of Texas;. That is like dumping Dioxins on the White House for Americans. Their attorney told mine they will be Betting the company, Betting the company is right, this is not small time & should be the greatest environmental lawsuit of all times. In Texas? Where our slogan we brain wash the world with is "DON'T MESS WITH TEXAS". They Should be talking about this case for years to come. We need every true TEXAN to help us with this case and hold these company's feet to the fire, set the standard for highest paying environmental lawsuit ever. I do not care about the money, it is all about the destruction of Texas Rivers & Lakes to me, and sending the world a huge message, "Don't Mess With Texas". The pit needs to be completely removed and the entire Whites Lake needs to be dredged, taking the poison to a safe place.

I pray, with everyone's help, we can send a signal, they destroyed the wrong state, Also, we are ready for trial. It is easy when all we have to do is tell the truth, **plus the destruction of the "Battle**

9494154

**Ground" is inexcusable.**

the neighborhood in flood zone area's of San Jacinto River Terrace Estates #1 should be getting the \$340 million; not to the County. The county has no dead people or people that will be sick for the rest of what ever life we have left. I have 1 dead uncle, 3 dead brothers (life long friends), 18 dead neighbors, 16 dead trees on 1/2 acre, that died within 1 year after Hurricane Ike blew the TCDD's & Furans everywhere, countless cats & dogs, etc.; 99.9% died after 2008 Hurricane Ike.

PLEASE HELP

Don't Mess With Texas,  
william
